

**What3words**

Do you have the What3Words App?

We highly recommend it, it's totally free and such a useful app for not only finding more challenging locations, especially in more remote areas but also a great tool to have should the worst happen and you have an accident . You can use it to give to the emergency services so they can send help to your exact location

We are starting to update all our venues with a what 3 word reference

Check out the app here - <https://what3words.com>

The show field does not have a postcode. If you cannot use What3words please use the postcode BH21 7EB to get to Hayters Feed Merchants and follow the yellow line
